“ Loy and Burton were good friends of my parents, John and Florence Drommond. Dad and Burton went to high school together and the last time I visited Connie in Arizona she showed me her Dad's graduation picture. She had her home decorated so nicely, she had a talent in decorating with antiques. We watched a Nebraska girl's basketball game with her and she fixed pizza.

She told about shopping with her sons for her red Chevy. We e-mailed about class reunions and she remembered going to Omaha in the 8th grade with her class in the back of a clean cattle truck.

When Connie lived in Lincoln our mothers would come to Lincoln to visit and I remember she had lots of angels in her home.

When I was small I remember looking up to Connie, twirling her baton.

She kept in the loup about news from Exeter.

My deepest sympathy to the family and many friends of Connie,
Ruth Ann Drommond Ronne

“ Sympathy to your family. You were an underclassman in my high school years, but we shared a lot of fun and activities.
